

## Chapter 7 Chemistry Review

13 multiple choice questions

- What are valence electrons
- What is the octet rule
- Know number of valence electrons in the groups/families we discussed in class
- Know the ion charge of the groups/families we discussed in class
- Stable configurations are noble gas configurations
- Do metals gain/lose electrons
- Do non-metals gain/lose electrons
- What type of elements form ionic compounds
- What physical state do ionic compounds exhibit.
